

NEW

KAWAII

- 2 minutes to teach, 5 minutes to play
- Push-your luck without dice
- Tactical observation game

Grab the cutest cards and mess with with the others

New title in our best-selling pocket collection. Kawaii is a dynamic card game where your goal is to get the most valuable pile before other players do so. In order to succeed you need to constantly observe other players' actions, use your memory and act fast, with no hesitation.

Super cute and mega fast sums it up nicely

Cute illustrations, nice theme and rules are extremely easy to explain, making the game perfect for kids and whole families. But there is also something for gamers, who will appreciate the risk-taking and push-your-luck factor, achieved without introducing dice. Thanks to its extremely short playing time, Kawaii could become a favourite filler choice for gamers.

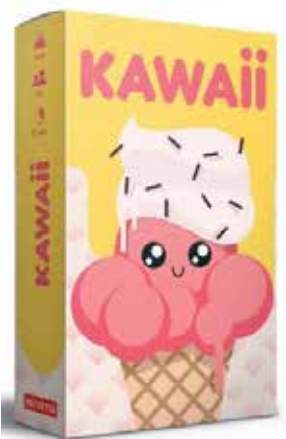

Launch: September 2019
